Dear Mr. Shepherd:

I apologize for taking so much time in sending you the information you requested on the reclamation plans for the Atlas (Moab) and Rio Algom (Lisbon) mills in Utah.

I want to emphasize that NRC has not approved either of these plans, and some modification may be required before they meet the requirements of 10 CFR Part 40, Appendix A.

Should this information not meet your needs, you are welcome to visit our office in Denver, Colorado, where you can review all of the information in our files pertaining to these two mills.

Please feel free to call me at (303) 236-2805, should you have any questions.

Sincerely,

A handwritten signature in cursive script, reading "Raymond O. Gonzales".
